

PowerMed™

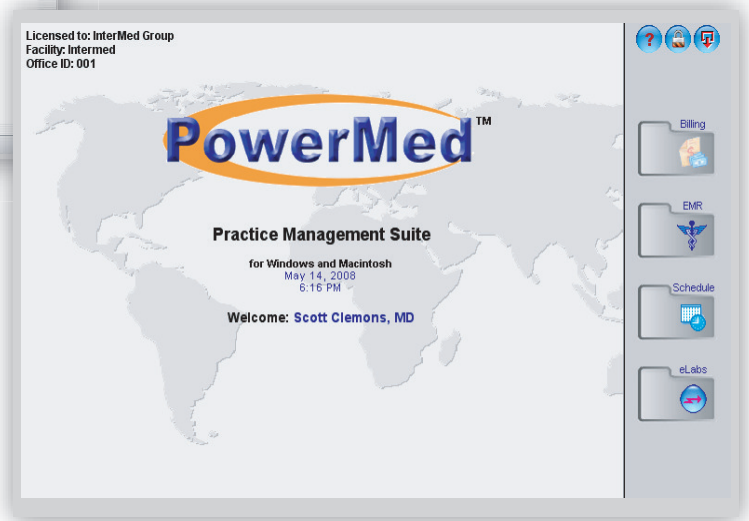

Allergy

PowerMed's Allergy module, designed by Allergists, is one of the many keys to a paperless Allergy practice.

As a central part of Practice Suite software (EMR, Billing, and eLabs), the Allergy Module provides seamless transition from paper to electronic patient charting.

Chart skin test results, create vaccines, manage immunotherapy (full shot room functionality), print vial labels, automatic charge capture, charting, total document management - everything you need in a single, unified product.
